## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 10, 14, 22, and 27-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 10 is not clearly understood because the word “preferably” might make the following limitation an option and not a requirement. The claim has been examined as if the word “preferably” was not there.

Claim 14 is not clearly understood because “the at least one central roof segment” lacks clear antecedent basis.

Claim 22 is not clearly understood because it refers to elements “the articulated connection” and “the first pivot lever” that lack clear antecedent basis. It is believed the claim should depend from claim 18 and not claim 10.

Claim 27 is not clearly understood because “the guide rod”, “the control rod”, and “the articulated chain” lack clear antecedent basis.

Claim 28 is not clearly understood because “the articulated chain” lacks clear antecedent basis.

Claim 29 is not clearly understood because “the front roof segment” and “the central roof segment” lack clear antecedent basis.

### *Allowable Subject Matter*

3. The following is a statement of reasons for the indication of allowable subject matter: The primary reason for indicating allowable subject matter is the rear window and outer roof frame profiles converted into a folded position in an essentially non-rotational movement, which is not found in the prior art of record.

4. Claims 1-9, 11-13, 15-21, 23-26 are allowed.

5. Claims 10, 14, 22, and 27-29 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
